The Doctors App

Version: 2.00 | Last Modified on 27/01/2026 9:02 am AEDT

The Zedmed Doctors App integrates with your practice's Zedmed server in real-time, providing practitioners with access to appointments and results via their phone at any time of the day.

Considerations:

- To get access, see the Doctors App setup guide.
- For Zedmed Cloud, your SSO authentication app will prompt you to authenticate every 24 hours.

When you log into the Doctors App, you can check your:

- **Appointments** - view and check the details of appointments booked in Zedmed.
- **Results** - check, review and action incoming results.
- **Patients** - view your patients' encounter history, results history and active recalls.
