

Create Tyro API password

Version: 1.00 | Last Modified on 17/04/2026 9:21 am AEST

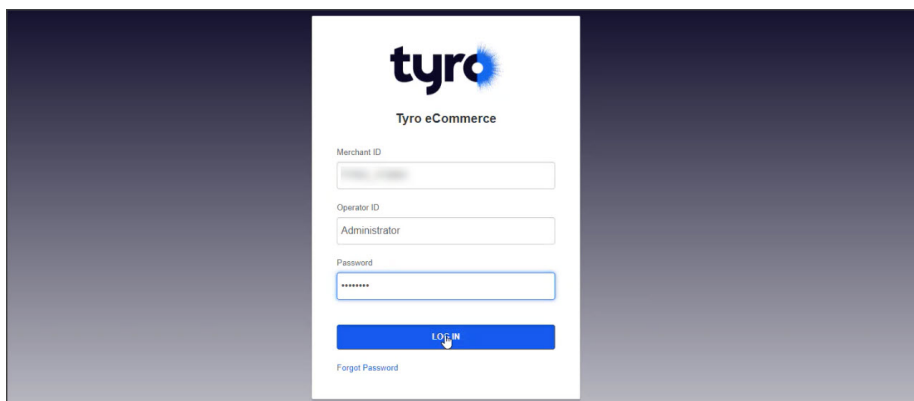

This guide explains how to create a Tyro API password for a person or practice receiving payments via Tyro eCommerce. This password will be linked to the practitioner or practice MID and bank account in Zedmed.

This password is created in your eCommerce account. There are two steps: log into eCommerce and create an Operator account, then log in with the operator account and create the password. Both steps are explained in this guide.

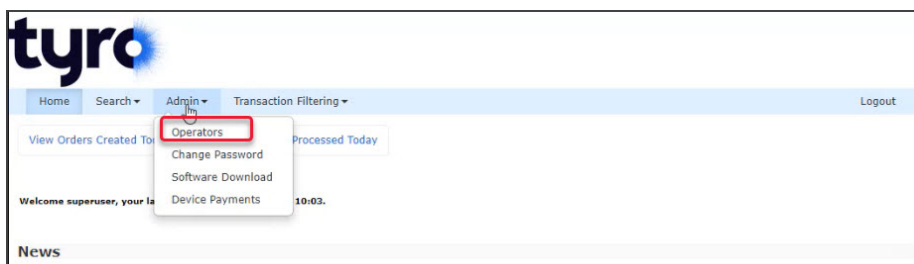

Step 1 - create an operator account

1. Login to Tyro's eCommerce portal with the credentials provided by Tryo for your eCommerce account.

URL: <https://tyro.gateway.mastercard.com/ma>

2. Select Admin > Operators.

3. Select Create a New Merchant Administrator Operator

4. Fill in the Operator Details.

- **Operator ID** - enter a logical name. E.g Integrations.
- **Operator Name** - you can use the same name used for the Operator ID.
- Enter and confirm the password.

The screenshot shows the 'Admin - Operator Details' page in the Tyro system. The form is titled 'Operator Details' and contains the following fields and values:

- Merchant: TYRO_172691
- Operator ID: Integrations
- Operator Name: Integrations
- Description: (empty)
- Password: (masked with dots)
- Confirm Password: (masked with dots)
- Email Address: (empty)
- Locale: English (United States)
- TimeZone: Australia/Melbourne

A password strength indicator shows a red bar and the word 'Weak'. A tooltip provides the following requirements: 'Password must include: At least one character from the following categories: Numeric digit, Special character'.

5. Further down the page, tick the following permissions:

- View Report Pages
- Download Order Search Results.
- May Configure Integration Settings.
- May Configure Integration Settings.
- May Configure Email and Webhook Notifications.

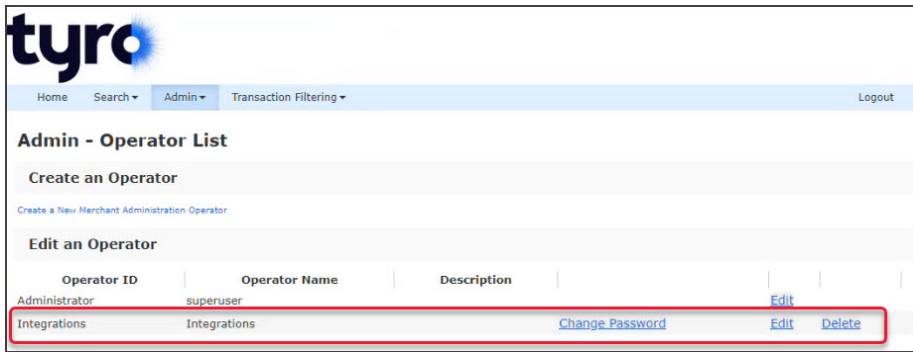

The screenshot shows the 'General' permissions page in the Tyro system. The permissions are listed as follows:

- View Report Pages
- Download Order Search Results
- Download Transaction and Payment Authentication Search Results
- Allow Merchant Administration Documentation Download
- May Perform Risk Assessment Review
- May Bypass Risk Management
- May Configure Transaction Filtering
- May Configure Integration Settings
- May Configure Reporting API Integration Settings
- May Configure Email and Webhook Notifications
- May Maintain Tokens
- May View Dashboard

At the bottom of the page, there are 'Cancel' and 'Submit' buttons.

6. Select **Submit**.

You will now see the new account in the Operator list.

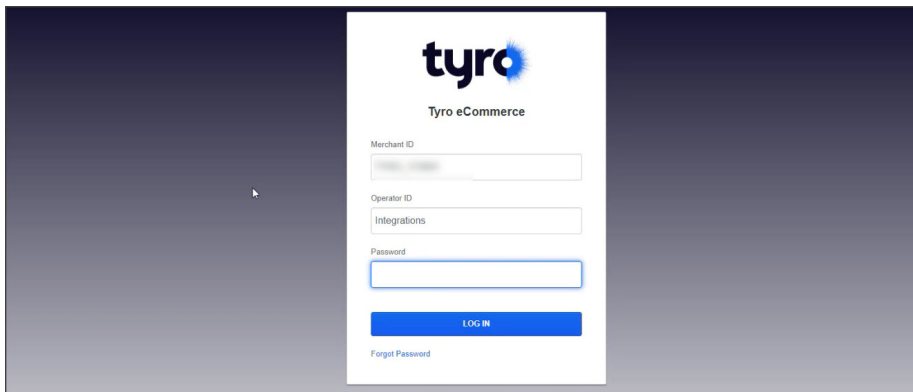

7. Logout.

Step 2 - generate an integration password

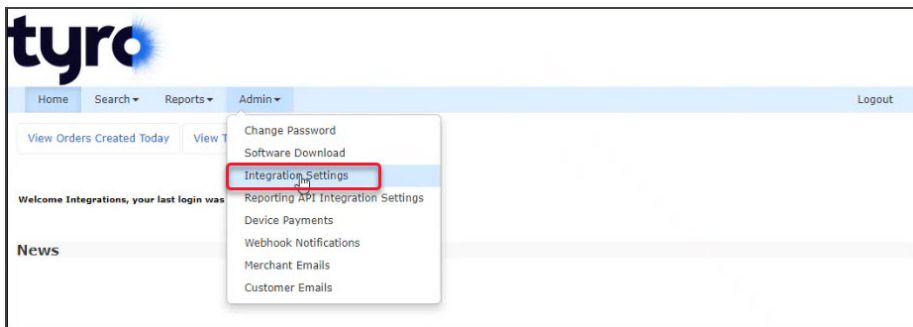

1. Login to the eCommerce portal with the operator account you created in Step 1.

this time the Operator ID will be Integrations

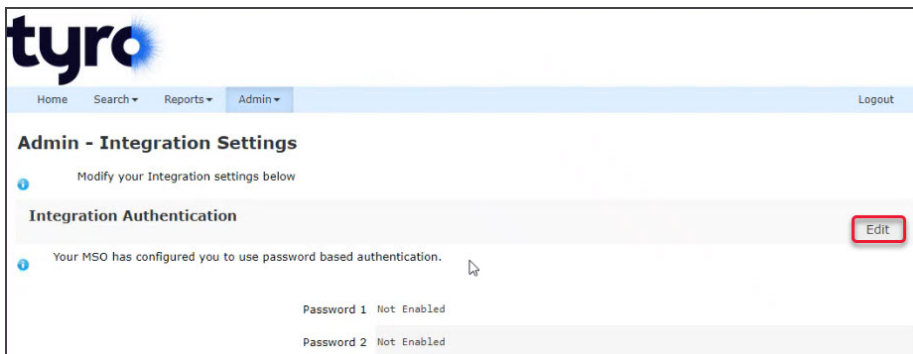

URL: <https://tyro.gateway.mastercard.com/ma>.

2. Select Admin > Integration Settings.

3. Select Edit.

4. Tick the Password 1 box to enable this new API Password

5. Select **Generate New**.

The screenshot shows the 'Admin - Integration Authentication Passwords' page in the Tyro system. The page has a navigation bar with 'Home', 'Search', 'Reports', 'Admin', and 'Logout'. The main heading is 'Admin - Integration Authentication Passwords' with a sub-heading 'Modify your Integration Authentication Passwords below'. There are two password entries: 'Password 1' and 'Password 2'. 'Password 1' has a checked checkbox for 'Enable Integration Access Via' and a password field containing '4eb'. A red box highlights the 'Generate New' button next to the password field. Below the password field, it says 'Generated On: 6/21/24 10:19 AM by Integrations'. 'Password 2' has an unchecked checkbox for 'Enable Integration Access Via' and a password field containing 'Generate New'. At the bottom of the page, there are 'Cancel' and 'Submit' buttons. A red box highlights the 'Submit' button.

6. Select **Submit**.

7. Take a copy of the password.

You will need to provide this password to Zedmed.

Zedmed will use this password to enable Tryo in your Zedmed installation.

The screenshot shows the 'Admin - Integration Settings' page in the Tyro system. The page has a navigation bar with 'Home', 'Search', 'Reports', 'Admin', and 'Logout'. The main heading is 'Admin - Integration Settings' with a sub-heading 'Modify your Integration settings below'. There is a section titled 'Integration Authentication' with an 'Edit' button. Below this, there is a message: 'Your MSO has configured you to use password based authentication.' Below the message, there are two password fields: 'Password 1' with the value '4ebd61' and 'Password 2' with the value 'Not Enabled'.
