

Payment Gateway report

Last Modified on 03/02/2025 8:54 am AEDT

Payments received by Payment Gateway will show as **ePayments** in banking reports, and the **Tyro ePayment Reconciliation report** helps practices reconcile Tyro ePayments if there is a discrepancy when doing banking.

The report is run for each bank list and will only show bank lists **configured for Payment Gateway**.

To run the Payment Reconciliation report:

1. Select the Office > **Reception** tab.
2. Select **Banking > Tyro ePayment Reconciliation**.

The report pulls information from Zedmed and Tyro, which should reconcile to a \$0.00 discrepancy.

In the example below, you can see an **ePayment refund** was processed in Zedmed and also in Tyro.

The Tyro transaction fee is not included, as it is not received by Zedmed and would prevent reconciliation.
