

Doctors App & Zedmed Mobile

Version: 1.00 | Last Modified on 26/11/2025 2:14 pm AEDT

Doctors App

What is it?

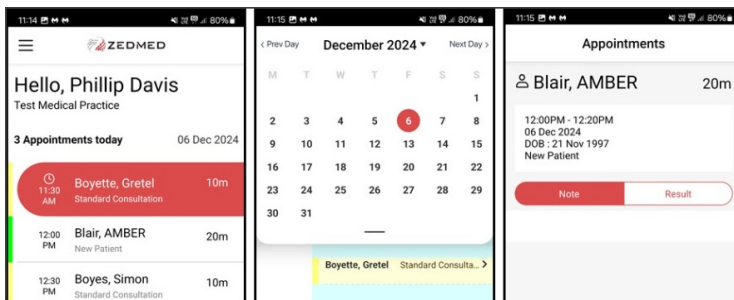

A mobile phone app that integrates with your practice's Zedmed server in real-time, providing practitioners with access to appointments and results (including result actions) and patient information. To learn more, see the [Doctors' App user guide](#).

How do I get access?

- Zedmed On-prem users are set up by their PM using the Security Module.
- Zedmed Cloud users without SSO are set up by Zedmed Support.
- Zedmed Cloud users with SSO set themselves up under My Options.

To learn more, see the [Doctor's App setup guide](#).

What does it look like?

Zedmed Mobile

What is it?

A Telehealth portal for Zedmed Cloud practitioners with Single Sign-On. It runs in your browser so you can monitor patients who have connected to Telehealth (and are waiting), and to initiate Telehealth sessions. To learn more, see the [Zedmed Mobile guide](#).

How do I get access?

Each practitioner sets up their own Zedmed Mobile under Clinical > My Options.

To learn more, see the [Zedmed Mobile setup guide](#).
